While traveling westbound on Arnold Mill Rd, I witnessed a small red single engine plane flying at low altitude across above Arnold Mill Rd. As I watched the plane move from my left to my right it seemed to "wobble" in the air and then turn onto its side. I could then see the top of the wings. As it turned on its side the nose of the plane dropped and then the plane went out of view behind some trees on the north side of Arnold Mill. I then called "911" and reported a possible crash. We drove up a small gravel road leading away from Arnold Mill Rd but were initially unable to find the plane.

I have read this statement consisting of 1 page(s), each page of which bears my signature, and I do affirm that all facts and statements contained herein are true and correct.
