

RECORD OF INTERVIEW

Daniel P. Boggs
Air Safety Investigator
National Transportation Safety Board
Office of Aviation Safety - Eastern Region

Date: November 26, 2018 0900 EST
Person Interviewed: Charles O'Brien-passenger
NTSB Case Number: ERA19LA041

Narrative:

Mr. Charles O'Brien was interviewed by telephone.

Charles stated he has flown with the pilot before. He stated he was sitting in the right front seat. He said that as soon as they took off, he knew something was not right because the airplane was not climbing like it should have been, he thought they might come back down and hit the ground. He said the airplane was slowly climbing and the nose of the airplane was going up and down. The airplane oscillated several times before they went left and hit the trees.

Charles received serious injuries.
