

NTSB RECORD OF CONVERSATION

Lynn Spencer
Aviation Investigator
Eastern Region, Office of Aviation Safety (ERA)
National Transportation Safety Board

Date Interviewed: 4/15/2020, 1220 EDT
Person Interviewed: Judy Sanford, Houston Aviation Center
NTSB Accident Number: ERA19LA264

The following is a summary of a conversation that occurred with the above-named individual:

- Ms. Sanford works for Houston Aviation Center and handles logbook entries for performed maintenance work.
- I asked Ms. Sanford to explain the engine logbook notes from February, April and May, 2019, which state “Missing entry.”
- She explained that she posted those notes in the engine logbooks where she could see that entries had been removed.
- Further examination showed that the removed entries were not “missing,” but reflected entries that were for the Airframe logbook but had been initially placed in the engine logbook before being removed to the correct logbook.
