Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

LEFT PROP, GEAR COWLING, WRINKLE OF LEFT WING

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Sequences of event:

-completed preflight as usual

-as per checklist, started engines, lights on, flaps up, gear down

-taxi to taxiway F, made transmission on tower frequency as to intentions

- entered runway 280 to backtrack for 100 departure

- increased MP to bring engine temp up

-cycled props twice

- after cycling of props, as throttles were being brought back to idle, I heard to sound of unusual contact

and immediately went to mixture cutoff, at which time the left wing had already made contact and the aircraft veered off to the left and onto the grassy area just west of taxiway delta. Aircraft came to a stop, an assessment was made of the scene to make sure there was no fire or immediate danger and I immediately contacted the aircraft owner.
