NTSB Case Number: ERA19TA195

Telephone interview: Student pilot
(Miles Fawcett)

date: 6/17/2019

Subject: 6120 review

In a interview with Mr. Miles Fawcett (student pilot), he said he was practicing full stop landings when the accident occurred. He said during the first full stop landing the nose wheel of the airplane bounced on landing roll. The second landing was normal, but on the third landing when the nose wheel bounced, he added power in an attempt to regain control of the airplane. He was unable to regain control of the airplane and it veered off the runway down an embankment before coming to rest.
