Subject: Statement - Reference Aircraft

Mr. Laycock,

On Friday, October 4, 2019 I attended a football game at Southwestern Randolph High school located at 1641 Hopewell Friends Rd, Asheboro NC 27205. While at the game, I heard an aircraft off to my left which was in the SW direction, and I heard an aircraft, which I recognized as a sound of a plane. I can't say the noise had any distress, however it was several minutes before I actually saw the aircraft that came from out of the SW above the trees. To guesstimate a time, I would say that it was approximately somewhere between 2115 hrs - 2130 hrs. I continued to watch the airplane, noticed a red light blinking on same, can't recall if on top, front, rear or underneath. The plane was more than just above the treetops, however not extremely high in the air. I wondered to myself what the plane must be doing and thought maybe they were taking a view of what the football field looked like lit up and would continue to the airport. I know there is an airport in the area, so I became distracted by whatever at the game and did not continue watching the plane. To say that the aircraft was in distress and flying erratic was nothing that I witnessed.

I am not sure if this helps in any way, however that is what I noticed last night while in attendance at the football game.

Sincerely,

Lt. Janet C. King
