Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On October 5th I was giving Mr. Brian O'Donnell, a Commercially rated pilot employed by Aerial Banners, a flight lesson. While during a basic power off stall demonstration Mr. O'Donnell froze on the controls with the elevator in the full up position. I was unable to overpower him and push the controls forward to break the stall. He did not respond to any of my commands to "LET GO OF THE CONTROLS!!!"
As a result he held us in the stalled condition until we impacted the Everglades in a slightly nose low and slightly right wing low attitude.

Both wings lay flat after we crashed which was not what the media showed of my left wing folded up over the fuselage. This was a result of the Broward Sheriff's helicopter trying to place a medic on my left wing and their rotor down wash blew my left wing up and on top of me which now wrapped the fuselage around my leg and pinned me in the wreckage. As a result I had to be cut out of the airplane using extrication tools which greatly delayed my transport to the Trauma Center at Hollywood Memorial Hospital.
