NTSB Accident Number: ERA20FA101
Subject: Examination of flight logs kept by pilot's wife
Date: February 15, 2020

On the above referenced date, at the pilot's residence and flight hangar, I reviewed 6 notebooks written by the pilot's wife. In these notebooks, I noted minute by minute entries for every flight that the wife flew with her husband. These entries included takeoff times, change in altitudes, all radio calls with frequencies, every turn within the traffic pattern, the notation of any unexpected noises, landing times, fuel purchases, and more. I photographed entries from two of the logs, and made a request of the pilot's niece to have the logs sent to me.
