Daily Weather Briefing

3-LINES

Prepared: 3/3/20 12:45 PM by: WN

valid for 12 hours

FOR ATC PLANNING PURPOSES

A low pressure system and associated cold front will produce two broken lines of thunderstorms over NE GA/SC and over south AL/GA. Cells will move east at 40-50kts. Expect mostly IFR/MVFR conditions. Surface winds will be west to southwest at 10-15kts with gusts up to 20kts. Flight Hazards outside of convection. LGT-MOD Turbulence from FL180-420 and below 100 with LLWS over all of ZTL. Also, LGT-MOD Rime/Mixed Icing from 090-FL280 over all of ZTL.
