	NAME OF REPORTING FACILITY Atlanta TRACON (A80)	

14. CHRONOLOGICAL SUMMARY OF FLIGHT
March 03, 2020

ALL TIMES BELOW ARE COORDINATED UNIVERSAL TIME
UNLESS OTHERWISE SPECIFIED

2113 N43368 contacted Atlanta Approach Athens Sector (E) at 6,000 feet. E issued the Athens altimeter. N43368 acknowledged.

2115 E advised N43368 a reroute around Atlanta airspace would be required and asked if a north or south routing was preferred. N43368 asked E to stand by.

2116 N43368 advised E that a north routing was preferred and also said they were able to climb if advantageous. E advised N43368 a climb of 10,000 feet would be required and that wouldn't work at the moment. E advised N43368 he would try to keep the reroute as direct as possible.

2117 E coordinated with Atlanta Approach Satellite P sector (SAT-P) for a routing of LOGEN intersection, DALAS intersection, direct Tuscaloosa (KTCL) for N43368. SAT-P approved the routing.

2118 E issued N43368 the reroute as coordinated and N43368 read the route back correctly.

2120 N43368 advised E he would have to deviate 10 degrees left of course for build-ups. E acknowledged and advised N43368 that after flying 15 to 20 miles on that heading the aircraft would be clear of the line of weather and could resume flying his cleared route. N43368 acknowledged.

2128 E advised N43368 that there was a break in the line of weather 8 miles ahead and to expect to fly through it there. N43368 acknowledged.

2130 E instructed N43368 to fly heading 300. N43368 acknowledged and advised that heading would aim the aircraft at a build-up. E described radar-depicted precipitation and N43368 advised that area was closing up fast. E offered N43368 an alternative, southerly reroute.

2131 N43368 advised he would turn right and E issued a 300 degree heading. N43368 stated there was a gap ahead and E again described radar-depicted precipitation.

2133 E asked N43368 to say flight conditions and the response was "rain." E instructed N43368 to fly a 360 degree heading and advised it appeared the aircraft was in a right turn. N43368 did not respond. E called N43368 twice, there was no response. E asked another aircraft (N380CP) on the frequency to call N43368, which N380CP did twice. There was no
