

RECORD of CONVERSATION

Millicent Hill
Air Safety Investigator
Eastern Region Aviation

Date: October 29, 2019
Person Contacted: Kevin and Suzanne Valliere

This investigator interviewed Mr. Valliere and Mrs. Valliere by telephone, and they stated the following:

- Mrs. Valliere was with a group of seven other passengers waiting inside the fixed base operator (FBO).
- An FBO employee unlocked the door to release them onto the ramp and one of their pilots escorted them to the airplane.
- Mrs. Valliere and another passenger were walking together at the back of the group when another airplane, about 70 ft away, started its engine. The jet blast knocked them both over and Mrs. Valliere sustained serious injuries.
- She did not recall if there was a safety briefing given before walking out onto the ramp.
