

MEMORANDUM FOR RECORD

Douglass Brazy
Air Safety Investigator
Eastern Region Aviation

October 23, 2019

Subject: NTSB investigation ERA20LA017, N762BF, Ayres S2R, Shellman, Georgia, October 18, 2019.

Michael Pupek, Federal Aviation Administration (FAA) Inspector from the Atlanta, Georgia, Flight Standards District Office provided the following information via telephone on October 23, 2019:

The airplane came to rest upright, and the fuselage was largely consumed by fire, aft of the leading edge of the wings and forward of the vertical stabilizer. Both wings remained partially intact with significant fire damage near their roots. The forward fuselage section was significantly fire damaged. The location of the origin of the fire could not be readily determined.
