

MEMORANDUM FOR RECORD

Todd Gunther
Air Safety Investigator
Eastern Region

Date: June 2, 2020
Subject: K71J Security Camera Stills
NTSB Case Number: ERA21LA197

On June 1, 2020, Ms. Denise Ellis, the Airport Administrator at Ozark Airport Blackwell Field (K71J), Ozark, Alabama provided to this investigation, still images from the airport's motion activated cameras. These images consisted of one image of a touch and go landing by the accident helicopter at approximately 1114 Central Daylight Time (CDT) and an image of the accident helicopter flying the length of the runway at approximately 1131 CDT.

Review of the images revealed that the time stamps recorded were in Eastern Daylight Time (EDT). They have been correlated to local time.
