DESCRIBE EVENTS OBSERVED BY YOU:

I, Rafi Taylor, am writing this statement as per our meeting with Juan Garcia of the FAA on 9/1/2020

Regarding the fueling of N900DT.

On Wednesday, 8/17/2020, I fueled N900DT with Avgas LL. The request was a top off, I completely
topped off the 1 tank on the right wing while the crew was present. Also, Nissan checked the fuel tank
after I was done and told me that it was OK. That is when I disconnected & finished up.
