Office: (931) 668-7050 • Fax: (931) 668-2651

September 15, 2020

Our video for this view was down and we didn't know that it was still recording. The equipment technician came today to make the necessary reset and found that it was recording.

The clock on this recording is obviously off approximately 1 1/2 hours.

I believe this plane to be N4166Z

Dr. Michael Roberts
Aviation Director
