

MEMORANDUM FOR RECORD

Douglass Brazy
Air Safety Investigator
Eastern Region Aviation

September 30, 2020

Subject: N2601Q, Cessna 182, 9/22/20, Lincolnton, Georgia, ERA20LA329
Information Provided by Ron Rakestraw (FAA Inspector, Atlanta, Georgia Flight Standards District Office)

Inspector Rakestraw provided the following information via telephone and emails, September 27-30, 2020:

Witnesses reported that the airplane flew low over a pond twice and crashed during the second pass over pond.

The airplane sustained substantial damage. Both wings were separated from the fuselage and sustained leading edge damage. The engine remained attached to the fuselage. The propeller assembly (both blades and hub) was separated from the flange. One propeller blade was twisted and bent about mid span, the other blade was slightly bent near the root and slightly twisted near the tip.
