Re: Estate of Mark Morrow, deceased
Aircraft Registration: N560AR
Date of Accident: September 2, 2021
NTSB Event Number: ERA21FA346

Dear Mr. Monville:

It was a pleasure speaking with you. As discussed, my office represents Mrs. Dunja Morrow in connection with the above matter. Mrs. Morrow is the surviving spouse of the decedent Mark Morrow.

Pursuant to your request, please allow this to confirm that Mrs. Morrow was unable to locate any records concerning any simulator training that Mr. Morrow may have had in the 12 months preceding the accident. She also has no independent recollection one way or the other, nor is such detail something she believes Mr. Morrow would necessarily have made her aware of. As we discussed last week, however, Mr. Morrow's logbook reflects possible training activity on the accident aircraft within that 12-month period.

Of course, if you need additional information, please let me know.

Very truly yours,

Douglas A. Latto
