Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

A Cessna 402C aircraft (N88833) operated Flight 2072 from Boston Logan International Airport (KBOS) to Provincetown Municipal Airport (KPVC) on September 09, 2021 with 6 passengers onboard. The flight departed KBOS at 14:50 local time and attempted to land on Runway 07 at approximately 15:03 local time at KPVC. After touching down the aircraft did not decelerate sufficiently to come to a stop on the runway; therefore, the crew attempted a go-around maneuver.

The aircraft became airborne and cleared the ILS antennae at the approach end of Runway 25 and cleared the airport perimeter fence; however, did not clear the trees immediately after the fence. The aircraft impacted multiple trees before coming to rest approximately 930 feet beyond the end of the runway.

There was ground fire and smoke on both sides of the aircraft. All passengers and crew evacuated the aircraft. EMS services responded to put out the fire and transport passengers and crews to the hospital. Passengers and crew sustained serious injuries.
