

MEMORANDUM FOR RECORD

Eric Alleyne
Air Safety Investigator
National Transportation Safety Board
Office of Aviation Safety - Eastern
Region

Pilots Parents: Mr. and Mrs. Boney
Interview date: 9/13/2021
Aircraft: American Champion Decathlon, N390PE
Subject: Accident event discussion

The information below was discussed via telephone interview with the pilot's parents during the on-scene examination.

During an interview with the pilot's parents, they informed me that the pilot was diagnosed with strep throat about a week ago. They said that he was administered a shot of (Rocephin) on 9/7/2021. The father said that they had purchased the airplane a few weeks prior but had owned the same type of airplane previously. The airplane departed from their home on a private strip (1391 West River Rd., Rhine, GA.). The father mentioned that when his son left, he thought he was going outside to store airplane away. That was the last time he spoke to his son.
