Performed 100 hour inspection in accordance with FAR 43(d) using the Lycoming 360 series Operator's manual as a guide and I have determined that this engine is in airworthy condition. Complied with SB480 by changing oil and filter using Phillips 100AW. Adjusted left and right magneto timing within limits. Compressions were as follows-#1 78/80 #2 78/80 #3 78/80 #4 78/80. Post operational test of above work was good, no leaks.

Nathan L. Steigenga
