KGSO → KMYR

Allen Siler - pilot

Called GSO Signature to pull plane out and top off all 4 tanks. Did precheck on outside of plane, 4 tanks topped, sumped good, oil level 9 gals. Walk around good w/ check of all bats, etc. Loaded plane and got in, we both put on seat belts. Went through interior and start with check list. Listened to ATIS, called ground and got flight following to MYR at 5500, squawk 7170, departure 126.6. Did run up w/ check list and all good. Called ground and taxied Signature, Kilo-Kilo 6 - Runway 23L. Called tower and looked at checklist for take off and climb. Departed GSO on left taxi and was told left turn to on course. Climbed to altitude on 170 heading. Closed cowl flaps, trimmed for level flight, built up air speed, then set MP 21.5, RPM 24, mixture back to 13 gal burn. On EDM 700, hottest cylinder (#5) for 352° and fuel flow 13.2 gal. left on Temp Display of Cylinders. Verified all with check list, several times. Turned on and set Auto pilot controls at 5500 and 170 hdg. Later in flight, switched to Aux tanks. I always put finger on fuel flow meter until I am sure no change. Passed to Florence and later I listened to MYR ATIS. Switched to tank right check fuel flow, talked with MYR App and told we would be #2 in line. Ingrid spotted lights of plane to follow, we were 13 min and 28 nm out. Asked to start VFR descent and approved. Switched off Autopilot and engine decreased in power to an idle.

Moved prop, throttle and mixture all forward.
Checked all switches and breakers. Moved
Fuel selector to each position, no change.
bumped boost pump, no change. Afraid to leave
boost on because could flood engine. Trying
maintain lowest altitude change with Spd trying
to be 120 mph. Called myR and told power
loss and they told options. Think picked
one 6.5 miles off my left. They told hdg.
of 060 and then hdg of 090. I had
landing lights on to see, they told me
of distance. Altitude voice warning at
500 ft, Put gear down. Had no visual,
trying to talk to myR at end with
no response. Last thing I remember
them saying was runway was non-lit
grass strip 12:00. Hit tops of trees
and eventually started down. When
stopped, saw ELT light flashing, we were
OK, turned fuel off. Turned switches
off, tried to open door, could not.
Tried and tried, Ingrid called 911 and
they said myR had called to report. Hanging
down on yoke, could not get out. Eventually
police man came and then firemen to
pull some windshield out of the way and we
crawled thru windshield.
