NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

See page 11 for description. The FAA inspector has pictures of all angles and the broken wheel that came off prop gouge in the runway, broken RW light and what we think was the landing gear strut gouge to the left of the prop gouge starting just off the runway and continuing a few feet until the plane nosed over.

ADDITIONAL INFORMATION (Please type or print in ink)

Use this space if additional space is needed for any answers.

ON October 5 I departed KPDK with my wife for some sightseeing in the N. GA. mountains around 2:15 PM. I flew up to and around Ellijay, Blue Ridge and vicinity and then decided to land at Ellijay, and maybe do some takeoffs and landings there. AAA. I crossed the end of the runway at about 80 MPH, which was too fast, and rather than go around then I went about 1800' down the runway and then put it down on the meins and it hit very hard, bounced up and to the left and touched down again at an angle. I was headed for the grass, gave it full power in an attempt to go around, stick and rudder pedals to the right, and the plane did turn right but then nosed over and ended up upside down and pointed south.

I HEREBY CERTIFY THAT THE ABOVE INFORMATION IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE
