Inspector Lyuke provided the following information on 10/27/20 via telephone:

The flight instructor (Lawrence Epley) and private pilot (Benjamin Davis) were not injured. The airplane sustained substantial damage to the right wingtip, right aileron, and the right wing spar was fractured near the wing root.

Inspector Lyuke reviewed the pilot's and airplane's records with respect to flight reviews, medical certificates, and inspections, and found them to be in order and up to date.

The pilots reported that the purpose of the flight was to preform instrument procedures and training pursuant to the completion of an instrument proficiency check for Mr. Davis.

Both pilots reported that there were no malfunctions or mechanical issues with the airplane.
