NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Sunday November 8 checked the weather for KLCI airport from the airnets web site for Monday Nov 9 2020 for my departure time 2:30 PM East time. Perfect weather clear light winds enroute and destination. Arrived in Airport next day KLWM done my preflight and checked Airport information for KLCI from airnav 53 miles North around 23 minutes flight time. my cruising altitude was 2800 MSL. The weather was perfect unlimited visibility smooth with few bumps when we approached higher elevation. About 10 miles South of the airport I announced my position, and said I would be landing runway 26 as I approached the airport I positioned the airplane about 5 miles East of the Airport as I recalled they were couple aircraft in the traffic pattern and another one 10 miles out from the North I dropped at 1500 feet traffic pattern altitude and joined left downwind for Runway 26. everything looked good done my final, checked Landing list dropped the gear, slowed down to 100 and put 15° of Flaps enter left Base dropped another 10° of Flaps and turned final around 80 airspeed, the ~~airport~~ runway looked like was in haze, I realize it was the sunlight. down the runway my visibility was restricted, I told my son Dimitri, I cannot see, it took 5 seconds I see tree branches in my left wing. I had no time to react I was in disbelief, after that everything was black going straight down it was like falling in a I remember dark hole, a second later I opened my eyes I said to my self I am not dead. I realize I was wearing my head

[REDACTED]
It worked the seat slides, backward
~~the~~ seat moved, and my legs were
freed. I shut the fuel off
right away main supply. I
could not reach it before, then
exited the airplane on my own
me and my son were waving
the seatbelts. they saved our
lives. considering the panel was
pulled toward us about 7 inches.
We suffered minor injuries a few
cuts for both of us. Otherwise
~~everything~~ everything was good
pilot error. I should have gone
around instantly. thank you.

And arms, [REDACTED]
I ask him if he was ok and he
said yes, there were some minor cuts
but my legs were stuck on my
son's sides between a column at the
center and on my sides side where
the rudders were, I could free my
self. I instructed my son to help me
he tried but could not. I was
afraid of a fire. I instructed him
to open the door, in the meanwhile
we were upside down, he opened
the latch and kicked the door, he
got out, he called 911, the fireman
came within 15 minutes, they
tried to free me with the jaws of
life I told him no need for that
I instructed him to put his hand
under the seat and move the
latch up ~~some~~ the seat can move

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

As soon as I turned Final the Sunlight blinded me restricted visibility, I should have push the power in to go around. I didn't that was my pilot error, if it doesn't look right go around. I like to go with the FAA or NTSB to teach others what I Experience I was very lucky to talk about it from the time I said it was busy to the crash 5 seconds

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)

Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

ADDITIONAL INFORMATION (Please type or print in ink)

Use this space if additional space is needed for any answers.

The lesson to this is IF it doesnt look
right, do not Continue what you doing
take Action right way. Do not hesitate
It will Save your life and your plane
Its got to be an Automatic Action
Split Second Decision, take it right away
Do not wait, thank you
I really want to teach others about this
Experience it can save lives.

I HEREBY CERTIFY THAT THE ABOVE INFORMATION IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE
