Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft and Engine were damaged beyond repair. I believe the aircraft cartwheeled as it impacted the ground breaking off the tail, bending the prop and separating the nose gear from the aircraft. The cabin remained fairly intact, allowing all three occupants to walk away from the crash with minor injuries.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Narrative included in e-mail file from pilot.

RECOMMENDATION (How could this accident/incident have been prevented?)**Operator/Owner Safety Recommendation**

As the pilot in command of this aircraft, I had landed at this airport on several occasions including night landings, to secure fuel at a discounted price. I was aware of the 4 degree PAPI lights and the trees surrounding the airport. It was a dark night and I should have clearly identified the tree line along the railroad tracks before the approach to the airport. I believe this would have prevented the accident.

Other Services, if Any, Prior to Departure**EVACUATION OF AIRCRAFT**

Was an emergency evacuation of the aircraft performed? ☐ Yes ☒ No

Method of Exit – Describe how the occupants exited and how many occupants evacuated each location

When the aircraft came to rest, I immediately turned off the master switch in case of fuel spillage. The doors had opened from the impact. I checked the passenger in the right front seat and he said he was ok. I told him to exit the plane on the right and to call 911. I then helped the passenger in the rear seat to exit the left door.
