DETAILS (WHO, WHAT, WHEN, WHERE, WHY, HOW) (SIGN & DATE UPON COMPLETION)

Approximately 5:50 pm I was outside talking with a neighbor when we heard a loud "bang". We looked toward the runway and saw a Cessna 172 rolling out on RWY 7 with the nose gear collapsed. The airplane departed the North side of the runway and contacted a chain link fence and a tree. The aircraft spun 180° after the left wing contacted the tree. I ran to the scene and found no one hurt.

DETAILS (WHO, WHAT, WHEN, WHERE, WHY, HOW) (SIGN & DATE UPON COMPLETION)

Aircraft attempted 1st landing to the east. 1st landing very rough and bouncy. Rough enough to cause concern. Aircraft took off again to the west. Attempted 2nd landing to the east. 2nd landing even rougher than the first, very bouncy with great cause for concern. Aircraft landing gear failed due to landing just outside of my line of sight. Aircraft came to rest in neighbors yard after collision with fence and trees.
