Departed Albert Whitted Airport to the West after looking at weather
Did turns around a point
Went over the golf and climbed to 2000' MSL
We discussed climbing more if it would be possible
because clouds looked lower than reported
while we were discussing, the engine failed.
we turned on the fuel pump, tried switching tanks,
turned carb heat on and tried restarting
we let tower know what was going on and that
we would not be able to make it back to Albert
Whitted.
I chose a spot with the fewest people where I
knew we could put it down without hurting anyone
and did a beach landing.
