Good morning to all,

As a follow up to Mr. Richard Fischler's email yesterday, I am providing the following information related to the functional testing of the following vacuum pumps performed on July 15, 2021 at Rapco, Inc. 445 Cardinal Lane Hartland WI. 53029:

- The package containing the vacuum pumps was not opened prior to arriving at Rapco, Inc. There was no visible damage or concerns when the package was inspected and opened.
- Pump model RAP 441CC-17 S/N C5222 (marked with the letter T) was inspected and tested at 0904 CST successfully indicating an output of 17.5 SCFM. The test concluded at 0907 CST.
- Pump model RAP 442 CW-6 S/N D10047 (marked with the letter B) was inspected and tested at 0911 CST successfully indicating an output of 18.0 SCFM. The test concluded at 0914 CST.
- I have included several pictures of the pumps in test mode for verification.

If I can be of any other assistance, please feel free to email/ call me at the contact information listed below.

Respectfully,

Peter

Subject: Return of subject vac pumps - N221ST

Hi Robert,
Inspector Hupfer was here today to witness the unboxing and test of the two subject pumps from N221ST.
