Statement

On Friday March 26, 2021 I taxied out to runway 5 at the Bessemer Airport. I performed my run-up and everything functioned within limitations. I advanced the throttle, climbed out and flew for about 40 minutes with no abnormalities. I came in to land and I did not maintain directional control of the aircraft, I allowed the aircraft to go to the left, I then added power to attempt a go around and then ending up stalling the aircraft.
