Tuesday April 6th, 2021

Flew to EYF (Elizabethtown) in Cessna 172 N5424R.

I did two touch and gos on runway 33 and one full stop landing. Then flew back to grays creek. Crossed midfield for runway 35 at 1100, turned downwind and added one click of flaps. Turned base and added 2nd flaps. Turned final and added full flaps. Airspeed was 80, (a bit fast maybe) tried to float it down, landed thinking it was long . The end of the runway was coming up and must have done something with the brakes that turned the airplane to the left. I went off the runway into the grass and flipped over. I was not hurt, I was able to get out of the airplane and walk away.
