

April 16, 2021

To whom it may concern,

On April 15, 2021 at approximately 4:00 pm EDT I took off from a grass strip in eastern NC in a Cessna 188, N731TB. A few minutes into the flight I heard a loud noise and the engine quit producing power. I tried to restart the engine, however my efforts were unsuccessful. I landed in a field and called the owner of the aircraft. End of Statement.

Thank You,
[Redacted Signature]

④ 4.10 pm Est. Pete Grow called
me on the phone & said Engine had
quit on the plane he was in the
field down Hwy 55 toward Kingston
& he was OK. I told him I was on
the way
