final. On short final pilot was 125 and had a decent of 1250 FPM. Pilot failed to see dangers and failed to see the need to go around. Pilot did not touch the ground until about half way down. We hit the ground and immediately bounced. We then bounced again at which point the pilot pulled the gear up and then went full throttle. The airplane then hit the ground and slid about 650 ft where it fell down a hill and hit some drain Rocks.
