

MEMORANDUM OF CONVERSATION

Aaron McCarter
Air Safety Investigator
Eastern Region Aviation

Date: February 16, 2022
Person Contacted: Steve with Wentworth Aircraft
NTSB Accident Number: ERA21LA284

Narrative:

He (Steve Wentworth) was unaware that the wreckage was still under investigation. He purchased the entire wreckage including the engine from the original salvage company that retrieved it from the accident site.

The airframe was totaled minus a few instruments. The engine, however, was in good working order. He sold the engine to a private individual several months ago.
