Subject: N512RT, Morgantown, KY (helicopter accident event)			
Digest: In a telephone conversation with Mrs. Bolls she said her husband and another pilot was on board the helicopter at the time of the accident. Mrs. Bolls said that they were preparing to spray a field and asked the ground crew personnel to fill the hopper with a little extra solution. She said they normally fill the hopper with 50 pounds of solution. They knew it was barely overweight but felt it would be fine. When Mr. Bolls took off he told Mrs. Bolls that the helicopter just wouldn't fly and he was getting a low rotor rpm light. As he attempted to land, he landed hard and the helicopter rolled on its side.			
Conclusions, Action Taken, or Required: This correspondence was reviewed with Mrs. Bolls
