

Inspector Statement

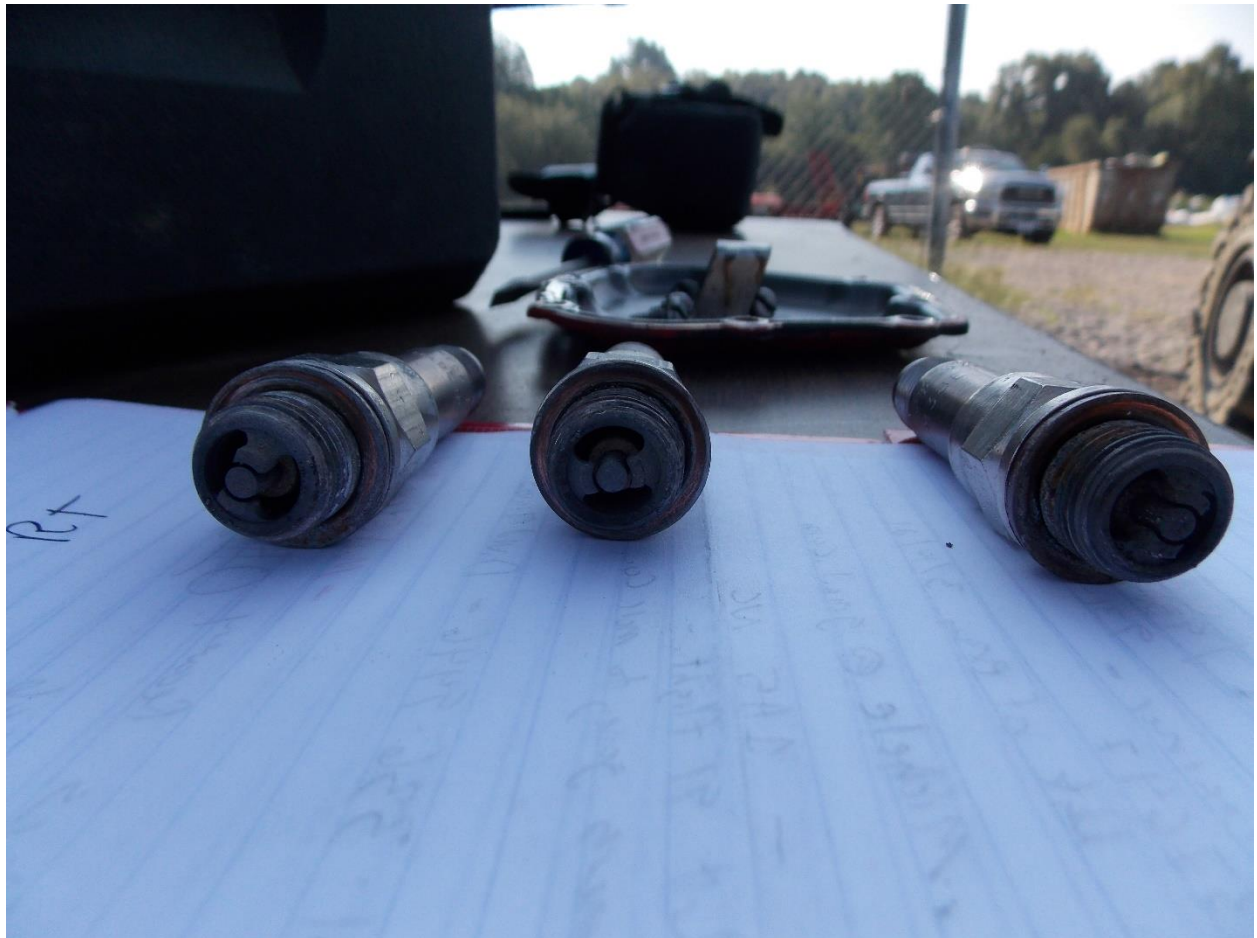

On August 26, 2021 Inspector Aaron deVogel traveled to AMF Aviation located in Springfield, TN to witness an engine inspection on N512RT, a Robinson R44, and serial number 11465. Hobbs time is 3339.3. Chris Ferraraccio of AMF Aviation performed the inspection under federal oversight. The following are facts found during the inspection.

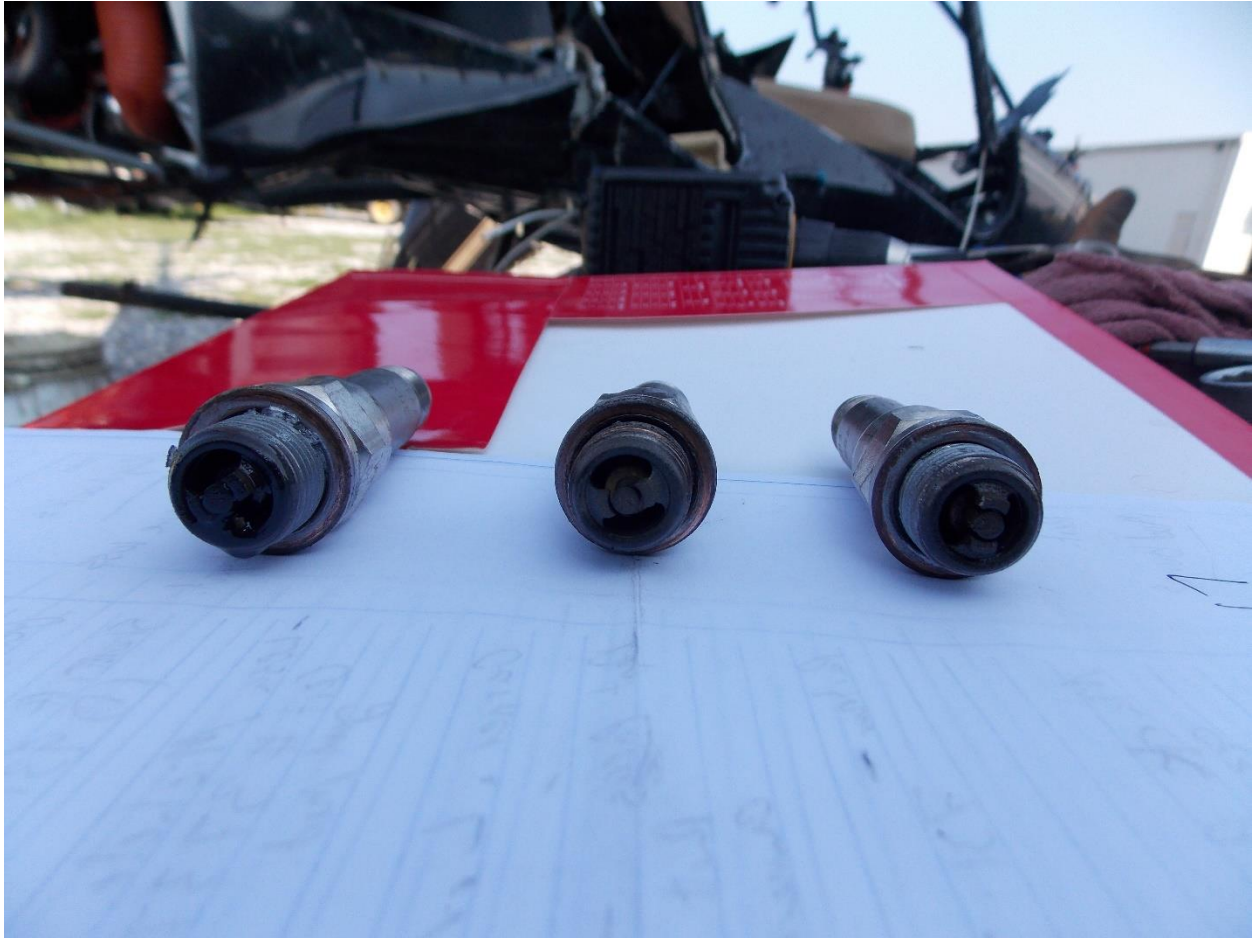

The bottom spark plugs were removed and inspected. No faults noted.

Compression was tested by rotating the engine and feeling the suction. All cylinders checked ok.

The valve covers were removed and all valves moved properly.

Both magnetos were removed and tested for spark by spinning the coupling with a drill.

Engine left magneto part number 10-600616-9, serial number E-05241.

Engine right magneto part number BL600646-201, serial number E-20CA017R.

Removed oil filter and inspected filter element.
