

RECORD OF INTERVIEW

Daniel P. Boggs
Air Safety Investigator
National Transportation Safety Board
Office of Aviation Safety - Eastern Region

Date: 7/29/2021 @ 1030 EST
Person Interviewed- Faustin Kabore – Pilot
NTSB Case Number: ERA21LA306

Narrative:

Mr. Fauston Kabore was interviewed by telephone.

Mr. Kabore stated there were no mechanical problems with the airplane. He stated he is a student pilot and this was his third time to fly solo. He was taxiing out for takeoff when he saw the fuel truck and believed his left wing was clear, but the left wing contacted the fuel truck and caused the airplane to spin into the truck damaging the left wing and propeller. He stated it was his fault.
