August 6, 2021 STATEMENT MARIA ALEJANDRA:

We completed the pretakeoff run up. When we were off the runway the airplane began moving to the left and we couldn't take off in normal way because the airplane was turning to the left and the instructor tried to stabilize the airplane. The flight instructor verified that I did not have any of the flight controls and she landed the airplane and we taxied off the runway.

Maria Alejandra Dicelis Ramos
