NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State time and point of departure, intended destination, and services obtained.

On August 16th, 2021 I was using the aircraft to accumulate time toward my commercial license in a Piper Cherokee, U.S. Reg. No. N98304 aircraft ("Aircraft"). During the accident flight, I initially acted as pilot in command and Deron Burrows was second in command. There were no other passengers. Prior to departing KHWO, we completed the preflight checklist, added oil and assured that the fuel tanks were full. Our flight mission was to land at KORL and later to return to KHWO. We left KHWO at approximately 6:40 pm and the subject flight was uneventful until moments prior to engine failure. About 30 miles from KORL, Mr. Burrows requested VFR flight following with a KORL approach and received a weather update and was asked to remain outside the KORL Class B airspace. As a result, we had to fly around the weather and then we were ultimately handed over to KORL tower at approximately 8:20 p.m.

During our approach, I was still pilot in command. However, when the Aircraft reach an altitude of approximately 700 feet, I determined that the Aircraft's throttle was not responding to my commands and I alerted Mr. Burrows. At that moment, I handed over command and Mr. Burrows became the pilot in command in order to best mitigate the engine failure. It is noteworthy that the engine never completely stopped, but was making nominal power. Once Mr. Burrows confirmed that the throttle was not responsive, I then went through the emergency checklist while Mr. Burrows pitched the nose up to decrease the rate of descent.

Mr. Burrows immediately called the KORL tower and declared an emergency. Given the incredibly short period of time between the engine failure and the impact with the ground, there was little opportunity to find a better area to emergency land the Aircraft in my opinion. I lost consciousness upon impact and do not recall anything until I was in an ambulance shortly after the accident. We both received medical attention at the urgent care center and were then transported to the hospital. I am unfamiliar with the area where the accident occurred; however, I have attached a hyperlink from a local news station that shows exactly where the Aircraft stopped its momentum.
