

RECORD OF INTERVIEW

Daniel P. Boggs
Air Safety Investigator
National Transportation Safety Board
Office of Aviation Safety - Eastern Region

Date: 10/4/2021 @ 1200 EST
Person Interviewed- Kenneth Patrick Lorton – Pilot
NTSB Case Number: ERA21LA389

Narrative:

Mr. Kenneth (Patrick) Lorton was interviewed by telephone.

Patrick stated he just purchased the airplane a week ago and had a few hours of transition training in the airplane before he flew it home. On the day of the accident, Patrick was going to go out and fly in the pattern and perform some touch and go landings. On the first landing, he stated it was a little off center and a gust of wind blew him off the runway and into a sign. The left wing sustained substantial damage. Patrick stated there were no mechanical problems with the airplane.
