Veronica Jimenez Statement:

Purchase of the plane:

- Edwin was picking up this plane in Lubbock, Texas
- He found it online through Facebook Marketplace
- He Facetimed with the owner to look at the plane, he was told a mechanic had inspected the plane
- He made arrangements to pick it up with Sergio
- Veronica booked the airline tickets for the pick up
 - Flight was American Airlines
 - She bought tickets for both Sergio and Edwin
 - They left at 3am on Wednesday the 20th, arrived home around 11pm at night with the plane
- He had to take an uber for 2 hours from the airport to get to the plane to New Mexico
- He paid for the plane with a cashier's check
 - \$60,000
 - Receipts are probably in his bag on the plane with him

What we know about Sergio Gill:

- Veronica met Sergio once
- Edwin told her he was a pilot who knew how to fly a multi-engine plane
- They met through talk around the airport, Edwin was looking for someone who knew how to fly multi-engine planes and started asking around
- People from the Covington airport introduced him to Edwin
- After the flight they took from New Mexico Edwin said that he was never going to fly with Sergio again because he seemed crazy and like his mind wasn't all there, he felt that he wasn't making good decisions
 - For example: Edwin told Veronica that he saw a storm on the fore flight and Sergio wanted to go through the storm even though Edwin said that there was a clear path to the left. They ended up taking the clear path but it alarmed Edwin
- The only personal stuff I know about Sergio is that he told Edwin that he was divorced three times
- Edwin didn't trust him

The flight on the 21st:

- On the 21st, it was a normal day, we took our son to school, worked in the morning and went to lunch at Outback. He was really eager to learn how to fly multi-engine. So around lunch time he set up a flight to train for an hour or two with Sergio that day
- They were texting back and forth and then I dropped him off at the Gwinnett Aero around 4pm, Sergio wasn't there yet
- I left with Ayden and started tracking his location the entire time via flight-aware
- I noticed that the flight aware said that he landed at 6:44 at Covington
- I was waiting on his call to go pick him up after his training, I figured he took his time and was chatting with people at the airport
- At 7:58 I started calling him and my call was going straight to voicemail
- At 8:31 I called the airport and the attendant said that the plane didn't make it to Covington and said he was uncomfortable having this conversation
- At 8:38 I hung up and started calling his sisters, went to his sister Yira's house and we headed to Covington
