

MEMORANDUM OF CONVERSATION

Aaron McCarter
Air Safety Investigator
Eastern Region Aviation

Date and Time: August 17, 2022 @ 1231 [REDACTED]
Person Contacted: Mrs. Paula Jackson, sister and pilot Douglas Jackson.
NTSB Accident Number: ERA22FA354

RE: Pilot (D. Jackson) in serious condition. Sister (P. Jackson) assisting brother while in the hospital.

Narrative:

Sister (Mrs. Jackson) answered the phone and assisted her brother (pilot) with the physical actions needed to answer the phone and possibly interpret. Inquired as to the recovery and condition of the pilot and she stated that he was able to sit up for a few hours and speak, albeit with a wired jaw. She believes he will be able to answer any questions, but she may have to interpret because of his condition.

The purpose of the flight was for pleasure. His passenger, who was a friend of the pilot and others at the airport was excited about her son just getting his pilot's license. Her son was going to be flying his mom to dinner to celebrate her birthday later that day.

When asked why the flight was so short, he responded by saying it was just a quick 20 minute pleasure flight, but he does not recall any part of the flight, nothing. Nor does he recall the accident. He only remembers hand propping the engine and nothing after.

He will relay any details if they come to mind and either call me or have his sister call. Informed him we would follow up as he continues his recovery.
