

MEMORANDUM for RECORD

Ralph E. Hicks
Senior Air Safety Investigator
Eastern Region Aviation

Date: September 30, 2022
Autopsy Findings
NTSB Accident Number: ERA22FA399 – Bay City, Wisconsin

According to autopsy report from the Office of the Medical Examiner, Pierce County, Wisconsin, the cause of death of the commercial-rated flight instructor (right seat occupant) was multiple traumatic injuries due to airplane crash. Toxicology testing on this pilot was not performed by the FAA Forensic Sciences Laboratory; however, testing was performed locally as part of the autopsy protocol. No evidence of drugs or ethanol were found.

The cause of death of the commercial-rated pilot-under-instruction (left seat occupant) was multiple traumatic injuries due to airplane crash. No evidence of drugs or ethanol were found.
