

Robert Gretz
Senior Air Safety Investigator
Eastern Region Aviation

Date: 9/11/22 & 9/20/22

Subject: ERA22FA418

Contact: Peter Hantelman, FAA RIC FSDO

The following are email extracts from Mr. Hantelman, respectively, of his conversations with the MTV airport manager:

“Bob,

Here is the fuel receipt for N2104J. The price of fuel is \$6.49 at the time, so that’s about 72 gallons of fuel.

The airport manager said that the pilot landed on Saturday 09/10, but that weather was too poor to continue. He asked the FBO if there were a rental car or other transportation to get to an airline, and they drove him to GSO, where he flew to PHI. He returned later to retrieve the plane...”

“...The MTV airport manager said that there is no record of any other purchases (oil, etc), and there was no evidence of oil loss at MTV...”
