NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I had departed KATL at approximately 1530Z after dropping off two family members of owner and returning to KCGC where aircraft is hangered.

While landing at KCGC at approximately 1730Z on 02/01/2022 on runway 18 grass strip I touched down centered and near the beginning of the runway at approximately 70 knots and applied normal braking the aircraft drifted slightly right of center line I corrected by applying less right brake and more left rudder. The aircraft had corrected back to near center line and airspeed was down below 20 knots when the nose wheel collapsed causing the propeller blades to separate from the hub and causing other damage to the aircraft. I shut off all necessary switches and exited the aircraft.

I can not think of a reason for the nose gear to collapse.

Note: Instructor time listed above is all Military time.

Time listed above are as of 02/01/2022
