Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Fuselage is Bent in several places, Right wing damaged.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible. 05-19-2022

About 4:30 PM Took off to the Northwest. Continued my flight for approx. 10 min., then headed N.E. to top of Chihouwe Range at 2500' MSL. Flaw there for about 15 min. then descended to 1,500' and turned N.E. heading to Seymour Airpark, at that point engine quit, then turned S.W. trying to get to some river bottoms about one mile away, when it was obvious that it was impossible to make it to bottoms I saw an area that did not have large trees on it. Headed for that and right wing struck first and aircraft came to a stop 180° from touch down.
