## NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On route from DAN to MTU for lunch at 8 miles out I contacted MTU and told them I was 8 miles out from the East. Right before contact another aircraft called in 3.2 miles out to MTU. When I started a 45 deg. left downwind for Runway 13 the same aircraft called in 4.2 miles out. He should have been in front of me and I was concerned so I asked him if he wanted me to pull out and go around as I was already in the landing traffic pattern. He advised me to go ahead and land. I was nervous because I didn't feel like the pilot knew exactly where he was at. When I turned on short final for 13 I realized that I was pretty high and put on full flaps and nose dive to be able to land at the end of the runway. My speed must have stayed at above 100 mph because the landing gear alarm never went off. I neglected to do a pre-landing check list. All of this was due to nervousness regarding where the other pilot was located.
