

MEMORANDUM FOR RECORD

Todd Gunther
Air Safety Investigator
Eastern Region

Date: July 27, 2022
Subject: Wreckage Examination Information
NTSB Case Number: ERA22LA332

On July 25, 2022, the wreckage of N709CW was examined by Federal Aviation Administration Inspector Gabriele Rotunda.

The following is the information she provided:

- The airplane was almost broken in half near the center section where the wings, pylon, and engine were attached.
- All three propeller blades were broken.
- The engine was canted to the right, and the engine mounts were damaged.
- The wings were damaged, twisted and bent.
- The internal framework was bent in the nose section and forward fuselage.
- The hull was damaged in several places and displayed cracking and large gaps in the structure.
