The correspondence below was sent by the owner via email to the FAA IIC inspector and forwarded to the NTSB IIC for review.

"Good morning, I am the owner of Aero Adventure who manufactures the Aventura II aircraft which crashed in Miramar yesterday. Antony Yen is our CFI and Jordan Hall is our south dealer. I have conversations and video of the engine trouble he was having from just a few days earlier. Knowing Tony and Jordan I would expect them to have had Go pros mounted on the plane, however because it was a test flight, I am not sure. I would be more than happy to assist in any way possible and share the video and the conversations that took place leading up to the accident.

Regards,

-Alex"
