Subject: ERA23FA047 - Summary of Email - Witness Report

Contact: Tapiwa Piloto, email sent Nov 4, 2022, 10:30AM EDT

The following is an excerpt of an email statement submitted by Tapiwa Piloto, a witness to an accident, that occurred in Alpharetta, GA on October 31, 2022, at 1304 EDT.

"My name is Tapiwa Piloto and am writing to inform you about what I heard on the afternoon of October 31, 2022 in Alpharetta, Georgia when a small general aviation aircraft crashed near Kimball Bridge road on Big Creek Greenway. I did not see the airplane as I was indoors in my apartment but I did hear the airplane engines and the crash that ensued shortly after. I live at the Collingwood Apartments and so I was near enough to hear it. The engines sounded like they were running at a high rpm, higher than usual and there was a loud metallic bang shortly after. I had a feeling it may have been a plane crash based off of what I heard and so I drew the blinds and looked out the window to see if I could see what happened or if I could see smoke. I could not see anything from my vantage point signalling an accident but I did observe the weather to be overcast with low cloud ceilings. I am a private pilot myself hence why I may have sensed something out of the ordinary with the engine pitch (noise) especially over this area where planes do not fly very low often. I hope this information was helpful.
