

To whom it may concern:

On the evening of 12/12/2022 Joshua Davis flew a Mooney airplane from Waycross, GA to Perry, GA. It was my understanding that Joshua would be flying the Mooney back to Waycross on 12/13/2022 to pick up a different plane and fly it to Alabama to pick someone up. Joshua left his keys in Waycross on 12/12/2022, so I drove him to Perry Airport on the morning of 12/13/2022. Joshua made the comment that he hoped that the Mooney was already fueled by the time he got there, so he could get started on pre flight check offs. When we arrived to Perry Airport on 12/13/2022, I walked inside with Joshua. They told him that the plane was fueled and ready, then they printed a fuel receipt. Joshua then took a picture of that receipt on his phone.
